COLOMBIA CUTS RUSSIA'S TIES OF DIPLOMACY

Break Follows Arrest of Reds as Agents of Revolution; Hundreds Dead.

By The Associated Press

BOGOTA, April 12—The government radio announced today Columbia has broken diplomatic relations with Russia.

The break in relations followed an announcement yesterday that two Soviet Russian agents have been arrested in connection with Friday's revolution.

The government radio said today 15 foreign agents, including two Russians, have been caught "inflagrante" (actions) and some were taken alive. It said three foreign agents were taken while trying to start trouble.

The announcer said delegates to the disrupted inter-American conference have decided to continue sessions of the conference here. He said this was done "so that communism could not triumph over Colombia and the rest of the nations of the hemisphere."

Shortly after dawn people in the downtown area where the United States embassy offices are situated began coming out of their houses in numbers unseen since Friday night.

Capital Devastated

A new coalition government claimed today to have put down a "communist insurrection" in Colombia—the mob uprising that wrecked the heart of Bogota.

This 400-year-old mountain capital was a picture of devastation. The latest city-morgue count showed 300 persons dead. Public buildings, Roman Catholic churches and stores were burned and looted ruins. Soldiers guarded downtown streetcorners.

Colombia, South American republic 150 miles below the Panama Canal zone, was under martial law invoked at noon yesterday.

The revolt against President Mariano Ospina Perez' mainly conservative government grew out of the fatal shooting Friday of Jorge Eliecer Gaitan, liberal leader.

A new conservative - liberal cabinet headed byb liberal Darrio Echandia as minister of government was formed Saturday and took office yesterday. The government claimed last night to have control.

Barranquilla, Cartagena, Medellin and Cali were among cities outside Bogota reported to have suffered from rioting.

The capital itself was short of food for its 325,000 or so inhabitants and for conference visitors from 21 American republics. It waited to see whether workers, after a relatively quiet Sunday, would stay out today in a general strike begun with the rebellion.

The visitors, among them U. S. Secretary of State George C. Marshall and Secretary of Commerce W. Averell Hariman, all were reported safe, many of them in Bogota's little disturbed residential sections.

But some, mostly women, already had been flown out of the stricken capital. Two United States C-54 transports returned to Albrook field in the Panama Canal zone last night with 86 passengers from Bogota. Thirty were U. S. women.

Situation Still Critical in Bogota

By JOSEPH F. McEVOY
Associated Press Writer

BOGOTA, COLOMBIA, April 12—(By telephone to New York)—The situation in this capital is still critical today after revolutionary riots which killed 300 persons, smashed at least 1,000 stores, set ablaze 40 major buildings and damaged many fine churches.

The problem of getting food and other supplies is serious. The main bulk of food supplies must be brought in from outside this capital city, and transportation facilities are in a snarl. Some food and milk are coming in, but supplies now are very limited.

The situation has improved slightly, however, from the virtual anarchy which prevailed for a time. Army troops are on patrol, with orders to shoot looters on sight. Rescue squads are picking up corpses amid heaps of rubble up to 10 feet high. Often there is a stench of human flesh in the air.

River Overflow Floods 200 Knox Co. Homes

By The Associated Press

MOUNT VERNON, O., April 12—Approximately 200 homes in Knox county were flooded today as the Kokosing river poured from its banks.

The river overflowed into Main street at Fredericktown, seven miles north of here, and backwater appeared on South Main street in Mount Vernon.

Mount Vernon schools were closed because numerous highways outside the city were closed and could not be traveled by school buses.

The river was receding today after coming within six inches of the top of the dike protecting this community of 12,000 persons.

Several business establishments in both Mount Vernon and Fredericktown were touched by the high water. The water ran four feet deep over a highway at the outskirts of Fredericktown, while the backwater in this city reached a foot in depth.

Heavy rains in other parts of the state set off typical spring freshets in creeks and rivers, but damage was slight. Numerous roads were closed.

At the Columbus Zoo, 15 miles north of the city on the banks of the Shaughnessy reservoir of the Scioto river, the water pump was flooded, forcing workmen to haul drinking water to the animals. They planned to raise the pump higher.

Most of the streams in the Columbus area were running bankfull or spilling into bottom fields.

BULLETIN

High waters today washed out a 70-foot bridge over the Kokosing river one-fourth mile east of state route 314, half way between Johnsville and Chesterville, in eastern Morrow county near the Knox county line, Morrow county highway officials reported today.

The area had 1.85 inches of rain overnight.

At Chillicothe, 50 miles south, 2.98 inches fell in 24 hours. U. S. 23 was covered north of the city with the run-out of Kinnikinnick creek, and U. S. 50, the east-west trunk, at Bainbridge.

At Portsmouth, where the Scioto enters the Ohio river, two inches of rain fell. Several roads were closed.

Route 37 between Lancaster and Bremen was closed, and U. S. 33 south of Lancaster was covered but traffic was moving.

Flash floods isolated some areas around Pomeroy and Middleport, on the Ohio river, but damage was slight.

Sunday Rainfall Closes One Highway

State highway 203 bordering the Scioto River between Prospect and Newman's was closed by high water today following the heavy rainfall Sunday. Several other routes including route 23 south of Marion and 30-S east of Caledonia were under water in spots last night but are passable today, the highway patrol reported.

Highway department workers are watching the Scioto near LaRue as the river continues to rise today after leaving its banks last night. Detour signs on route 95 between New Bloomington and LaRue may go up this afternoon, it was reported at the state highway garage.

Sunday rainfall was measured at 2.01 inches here making it the heaviest so far this spring, while in Mt. Gilead the soil conservation office reported the heaviest sustained fall in the past five years, with a 3.33-inch reading.

Creeks and ditches in the Morrow county area went over their banks last night with one school, at Chesterville, reported closed today when high water blocked county roads.

With the exception of route 203, Marion county highways were passable today. In neighboring counties several main highways were listed as flooded by the state highway department. Included are route 13 between Mansfield and Mt. Vernon and route 97 between Lexington and Butler in Richland county and route 95 two miles west of Perrysville, in Ashland county.

ACCIDENT VICTIM DIES AT BUCYRUS

Norwalk Woman Fatally Hurt in Traffic Crash.

Mrs. Mary Peck, 63, of Norwalk died in Bucyrus City hospital at 1:10 a. m. today of injuries suffered in an automobile collision 11 miles north of Bucyrus Sunday evening.

Mrs. Beck suffered a broken leg, arm, and nose, body lacerations and internal injuries.

She was a passenger in a car driven by Henry Didion, 63, of Norwalk, which was involved in a collision with a car driven by William Lahman, 25, of near Bucyrus, at the intersection of routes 100 and 103 at 5:30 p. m.

State highway patrolmen investigating the accident reported that it was raining at the time and that the cars collided at the intersection as Didion was headed east and Lahman north.

Both men received bruises and lacerations and their cars were considerably damaged.

Mrs. Beck was Didion's housekeeper. A daughter lives in Upper Sandusky.

ROBBERY CHARGES BEFORE GRAND JURY

Cases of Two Marion Men Considered in Wyandot Co.

The Wyandot county grand jury today was to hear Prosecuting Attorney Russell C. Price charge Paul Robert Clark, 29, of 131½ South State street and Raymond Edward Littell, 29, of 276 Park Boulevard with the armed robbery of Reno's Recreation room in Upper Sandusky April 1.

The case of the two Marion men will be last on the five case docket the grand jury will hear today.

Prosecutor Price, in a telephone interview this morning, said he would submit his evidence and ask for indictment of the two men possibly before noon. The finding of the grand jury is expected before adjournment tonight, the prosecutor said.

The grand jury was called into session at 9 o'clock this morning by Common Pleas Judge Russell H. Kear. Today's session is the first of the term of court in Wyandot county.

Both Clark and Littell were apprehended here by police shortly after the stick-up of the Upper Sandusky cardroom in a lightning double play dragnet thrown by Chief William E. Marks of the Marion police and Sheriff B. H. Stansberry of Wyandot county.

Indictment of the two Marion men by the grand jury today is more than a strong possibility in view of four positive identifications of Clark and two of Littell by six of the ten holdup victims.

NEBRASKA GOP CONTEST TOPS TUESDAY BILL

Presidential Preferences in Primary, Other Developments Brewing.

By The Associated Press

Nebraska's all-star Republican show tomorrow holds top political billing but other presidential campaign developments vied for attention today.

These were the highlights:

▶A group of southern Democratic state chairmen opened a two-day session in Atlanta to discuss the controversial civil rights program which has provoked a split in party ranks.

Before them lay an appeal from a midwest Democratic conference to "unite behind our platform and candidates." The midwest group representing 13 states went on record at Des Moines yesterday in support of President Truman whose candidacy is bitterly opposed by the Dixie rebels.

Poll Favors Dewey

▶A lawmaker's unofficial poll of house Republicans showed Gov. Thomas E. Dewey of New York rated as having the best chance of being elected if nominated. Out of 116 ballots Dewey received 24 votes, Sen. Arthur Vandenberg, 19, Gen. Douglas MacArthur, 18, Speaker Joseph W. Martin, 13, Sen. Robert A. Taft, 13, Harold E. Stassen, 9, Gen. Dwight D. Eisenhower, 6, Sen. Edward Martin of Pennsylvania and Gov. Earl Warren of California, 1 each.

Rep. Busbey (R-Ill) who conducted the survey, also asked house Democratic members to pick the man they regard as most likely to win if nominated. Of the 37 votes cast, 15 went to Eisenhower, 8 to Truman, 5 to Vandenberg and 2 to Speaker Martin. Others receiving 1 vote were Sen. Alben Barkley (D-Ky), Justice William O. Douglas, James A. Farley, Taft and Henry A. Wallace.

▶Third party bakers of Henry A. Wallace decided in Chicago to follow the Republicans and Democrats in one repect—by choosing Philadelphia for their convention July 24-25. And the Wallace group invaded Mr. Truman's home state to organize a progressive party of Missouri to push their canddiate.

Group Drops Truman

▶The Americans for Democratic Action declared in Pittsburgh that the nation has a "right" to call on such men as Eisenhower or supreme court Justice Douglas for the presidency. In apparently dropping Mr. Truman, the ADA statement applauded his civil rights and the foreign aid programs, but added:

"We cannot overlook the fact that poor appointments and faltering support of his aides have resulted in a failure to rally the people behind policies which in large measure we wholeheartedly support."

While the outcome of the Nebraska voting is not binding on the state's 15-man delegation to the Republican national convention, the seven-man race has attracted wide attention.

Cautious victory claims came from supporters of Dewey, Taft and Stassen. Others listed on the ballot are Vandenberg, MacArthur, Speaker Martin and Warren.

"Town Meeting" To Originate in Marion

The famed "Town Meeting of the Air" program will be broadcast from Marion Tuesday, Aug. 24, 1948.

The announcement was made today by H. E. Webster, secretary of the Marion Chamber of Commerce. The Chamber is sponsoring the broadcast.

The program will originate from the stage of the Palace theater and will be broadcast over 251 stations of the American Broadcasting Co. network.

Mr. Webster said today that the speakers and subject of discussion will not be known until a few weeks before the broadcast.

The "Town Meeting" program recently celebrated its tenth anniversary on the air.

One of the speakers on the anniversary program was Norman Thomas, native of Marion, who also was a speaker when the program was inaugurated in New York.

ITALY'S REDS HOLD STRIKE

1-Hour Long Protest Against Slayings Falls Short of Predictions.

By The Associated Press

ROME, April 12 — A nationwide, Communist-called, one-hour general strike went off as ordered in Italy this morning.

First reports, however, indicated the work stoppage fell far short of achieving the general paralysis predicted by its instigators, the Communist-led general confedration of labor (CGIL). The strike was called to protest the slayings of 35 Sicilian labor leaders over the past two years.

The pro-Communist newspaper Il Paese reported, meantime, new pre-election violence has been instigated by the "Facist terror" in the south.

Dispatches to the paper said two persons were killed and 22 injured when a bomb was tossed into the midst of a Communist-dominated popular front rally at Lizzanello near Lecce yesterday.

Giuseppe Galasso, front candidate for the chamber of deputies in Sunday's national elections, was reported injured.

Only the stoppage of street cars and buses indicated to Rome residents that the general strike was on. The CGIL had announced that the city's telephone service would be suspended during the strike, but the phones kept working.

Many stores remained open, the employes apparently ignoring the strike call. Government offices said they were working normally. Factories, however, were idle.

2 RICHWOOD MEN HELD IN STABBING

Charge of Assault and Robbery Filed Against One.

Special to The Star

MARYSVILLE, April 12—Paul Debolt, 21, and Edgar (Buck) Carr, 40, both of Richwood, are being held for investigation, in the stabbing and $300 robbery of Gale Hogue, York township farmer, which occurred early Friday morning.

Debolt, who is charged with assault and armed robbery, was apprehended in Richwood Sunday morning, Union county Sheriff Homer Roosa said, and admitted aiding in the robbery but denies knowledge of the stabbing.

Carr was picked up by Lima police this morning and is being held for investigation.

Hogue, who was stabbed twice in the throat, is recovering at his home.

STRIKE TIES UP PLANT

By The Associated Press

AKRON, O., April 12—Pittsburgh Plate Glass company's Columbia chemical division in nearby Barberton was strikebound today. Some 1,600 members of the United Mine Workers district 50 voted to walk out last night in support of demands for a 30-cent hourly wage increase. Management had offered 14 cents an hour and six paid holidays.

Pension Proposal That Ended Strike

By The United Press

WASHINGTON, April 12—Terms of the pension proposal by Sen. Styles Bridges, (R) of New Hampshire, which settled the coal strike:

Amount—$100 a month.

Eligible—All members of United Mine Workers with 20 years' service who became 62 years of age after May 28, 1946.

Ineligible — Those who retired on or before May 28, 1946.

John L. Lewis had proposed that all miners and former miners aged 60 with 20 years' service should be eligible for $100 a month pensions.

Under Lewis' demands a United Mine Worker would have been eligible no matter how long he had retired. Operators objected to that proposal and also wanted retirement age set at 65 years at least.

OHIO POWER CO. WORKERS ON STRIKE

Three Plants Picketed; Towns in This Area Served.

The CIO Utilities Workers union went on strike today at three generating plants of the Ohio Power company which serves a number of communities in this area, according to an Associated Press report from Steubenville.

The three plants affected were the Tidd plant near Steubenville, a plant at Philo near Zanesville and the Windsor plant in the Wheeling, W. Va., area. No immediate estimate on the number of striking workers was available but inside picket lines supervisory and clerical employes kept operations going.

Among the 55 central Ohio counties served by the company are sections of Marion, Wyandot and Hardin counties including LaRue, New Bloomington, Waldo, Upper Sandusky, Bucyrus and Kenton.

In Canton a company spokesman said "all normal operations" were being carried on by supervisory employes. The spokesman said the strike was caused by a dispute over recognition of the CIO union at the Tidd plant.

The Utilities Workers union won an election at the Tidd plant last May. At a national labor relations board hearing in Canton Feb. 24 the company was ordered to recognize the union or be cited for unfair labor practice. The company has refused to recognize the union unless the control operator at the Tidd plant is exempted from union membership, the Ohio Power company spokesman said.

Among speakers listed for the afternoon services were Trygve Lie, secretary general of the United Nations, and Henry Morgenthau, Jr., secretary of the treasury under President Roosevelt.

POWERS PRESS GERMAN UNION

U. S., Britain and France Go Ahead Despite Russian Protests.

By The Associated Press

WASHINGTON, April 12—Over angry Russian protests, the United States, Britain and France have decided to go ahead at once with their own plans for unifying western Germany economically.

They may decide to set up a separate political regime as well.

The decision to hold another three-power meeting in London to blueprint Germany's future was reported authoritatively today as the conflict between the Soviet Union and the west entered a critical week.

It is a week which may be climaxed by last minute moves on both sides to try to influence the outcome of the extremely important Italian election next Sunday.

Some European diplomats who have conferred recently with top American officials believe the issue of peace in Europe may be determined by the Italian voting.

That the week will bring new alarms and tensions seems certain. Whether it may also shed light on some of the dimmer areas of Soviet-Western rivalry remains to be seen.

British Military Train Delayed

By The Associated Press

VIENNA, April 12—A British military train was detained four hours at Semmering pass checkpoint by Russian guards today, British sources said. The train was enroute from Vienna to the British zone.

Another military train from the British zone to Vienna arrived at the checkpoint, 50 miles from Vienna, after the southbound train had cleared and was held up for an hour.

The incidents apparently were part of a new campaign of Soviet travel restrictions such as those recently put into effect in and around Berlin.

NORTHWESTERN OHIO TAFT DRIVE STARTS

By International News Service

TOLEDO, April 12—A five-star battery of Ohio Republican leaders join Sen. Robert A. Taft today in Toledo for the start of his northwestern Ohio offensive against Harold E. Stassen for delegates to the national Republican convention.

Heading the list of Republican stalwarts to speak in Sen. Taft's behalf during the spring conference of the Ohio federation of Republican women's organizations, which opens today, are Sen. John W. Bricker, junior senator from Ohio, Ohio Gov. Thomas J. Herbert and Sen. Eugene D. Millikin of Colorado.

Others who will assist Sen. Taft's presidential aspiraions as Ohio's favorite son" include Mrs. Katherine Kennedy Brown, GOP national committeewoman and Fred Johnston, state party chairman.

Sen. Taft's address tonight before the federation, on the eve of the Nebraska primary which will bring the first Stassen-Taft contest for convention delegates, is expected to attract nationwide interest.

TRIAL SET FOR WEDNESDAY BY GOLDSBOROUGH

Court Proceeding Held After Mine Chief Accepts Bridges Pension Proposal.

By The Associated Press

WASHINGTON, April 12—Federal Judge T. Alan Goldsborough today ordered John L. Lewis to face trial Wednesday (10 a. m. eastern time time) on contempt of court charges.

Despite settlement of the 29-day mine stoppage, Goldsborough held Lewis had not purged himself of contempt charges.

The government has accused Lewis of contempt for alleged failure to comply with a court order of April 3 to end the strike.

Goldsborough ruled that the pension agreement has "absolutely nothing to do with the contempt proceeding."

He said that was his "final conclusion" on this point and would permit "no argument."

Pensions at Age 62 Accepted by Lewis

WASHINGTON, April 12—John L. Lewis won $100-a-month pensions at age 62 for his miners today and gave the striking coal diggers word to go back to work.

Lewis had asked the pensions at age 60, but accepted a propesal from Senator Bridges (R-NH) to put the figure two years higher. Ezra Van Horn, representing the mine operators in negotiations with Bridges and Lewis, opposed the plan but was out-voted.

With the agreement, Lewis telegraphed his miners:

"Pensions granted. Agreement honored."

That was the word the striking miners were waiting for. They walked out four weeks ago on advice from Lewis that the mine owners had "dishonored" an agreement to provide welfare benefits.

At Pittsburgh, a district leader of the United Mine Workers said a return-to-work movement would begin upon receipt of the telegram.

"It looks to me like the miners will be going back to work," said William J. Hynes, president of UMW district 4, which includes the rich Uniontown coal and coke producing area.

As for the settlement Hynes said:

"I think that's a fine settlement."

Contempt Charge Unchanged

Despite the settlement, the justice department went ahead with a move to nail a contempt of court charge against Lewis.

It contends he is in contempt of court for failing to call off the strike as ordered April 3 by federal Judge Matthews F. McGuire.

The event went like this:

Lewis, Bridges and Van Horn met at 8:30 a. m. and announced the pension settlement ater an hour's conference.

When the meeting broke up, K. C. Adams, public relations man for the United Mine Workers, gave reporters a statement from Bridges.

Apparently the statement was prepared before the meeting convened, indicating Lewis and Bridges were certain of the outcome when they met with Van Horn.

Then at 10 a. m., Justice T. Alan Goldsborough convened court to hear the contempt case against Lewis.

Lewis stayed away. His presence was not actually required because the proceedings were on a motion to "show cause"—(why he wasn't in contempt)—a proceeding ordinarily handled by attorneys.

Goldsborough said he was disposed to put the proceeding over until Wednesday, because the union had already filed a written answer to the rule to "show cause."

Judge Consents

But Welly K. Hopkins, United Mine Workers counsel, said he would like to make an oral statement.

The judge, saying "this is a matter of great public interest," consented to hear both him and the government.

Assistant Attorney General H. Graham Morison, then launched into the government recital of the events leading up to the strike.

Bridges described the pension plan he advanced as a "tentative one."

He came into the case because

Iodine in the Daily Diet

The body uses certain substances — chiefly minerals and chemicals — in infinitesimal amounts. To those of us who are used to dealing in ounces and pounds, the term "speck" would best describe the quantities needed. Since these are so small, the average man or woman might reason that going without them altogether could do no great harm. Just the reverse is true, and the penalty of depriving the body of only a few grains of an essential substance can often be disastrous.

You could, for instance, put the necessary daily ration of iodine on the head of a pin. But trying to do without it would result in all sorts of disorders.

Iodine is particularly needed as one of the ingredients used by the thyroid gland to form the secretion which regulates the speed at which all chemical activities of the body are carried out.

In many parts of the world, food and water may be lacking in iodine. Such areas are known as goiter districts, because the deficiency of iodine leads to enlargement of the thyroid gland or goiter. The Great Lakes area in this country is one of the largest goiter districts in the world.

Studies have been carried out on large numbers of children [illegible] have indicated that those living on areas receiving enough [illegible] grow almost a half inch taller than those who do not get the iodine. Their weight also is greater.

These studies have also indicated that the birth weight of infants whose mothers received iodine during pregnancy was greater than those of mothers who did not get this mineral. Then, too, it has been shown that the feeding of milk with an increased iodine content to children living in the goiter areas resulted in more rapid and regular growth.

Another interesting study was carried out, comparing the number of stillbirths which occurred in women who received iodine during pregnancy and those who did not. During a five-year period, in a group of almost 20,000 women there were six times as many stillbirths in the women who did not receive iodine prenatally as in the women who received iodine. From these studies, it was concluded that stillbirths in human beings may be due in many cases to iodine deficiency.

It seems definite that the addition of iodine to the diet of young children living in the goiter belts is necessary for their normal growth and development.

As I said before, the human requirements of iodine is small, the daily amount having been calculated as 200 micrograms for a person weighing 150 pounds. A microgram is one-thousandth of a gram and it takes 30 grams to make an ounce. Since the amount needed is so small, a convenient way of getting it is through the use of table salt to which iodine has been added. Iodized salt can be bought in any grocery store and its use is to be encouraged as a means of making sure that everybody gets sufficient iodine in the daily diet.

Questions and Answers

J. E.: I suffer from hoarseness and am irritable and nervous. I am always trying to clear my throat. What would you suggest?

A. Long-continued hoarseness may be due to several disorders, such as tumor growths or infection of the larynx or voice-box.

An examination with a laryngoscope, an instrument made up of a tube and light which makes it possible for the physician to look directly into the larynx, would be advisable.

ACTION TAKEN ON SALES TAX

State Commissioner Revokes 19 Licenses on Violation Charges.

By The Associated Press

COLUMBUS, O., April 12 — State Tax Commissioner C. Emory Glander today put out of business 19 merchants on charges of tax dodging.

At the same time, he cited an additional list of 104 firms to show cause why their vendors' licenses should not be revoked. They were charged with failure to have sales tax stamps on hand and failure to tear off stamps for purchasers.

The 19 merchants whose licenses were revoked were among a group of 138 cited by Glander earlier in the year. He said they had failed to request a hearing on charges of wilful violation of the tax law.

Previously, Glander had revoked the vendor's license of Richard C. Lang, Reading, O., restaurant man, who was among the first group cited. Lang, was given a hearing by the taxation department, has filed notice to appeal to the state board of tax appeals. He said he considered the law authorizing revocation of the license to be unconstitutional.

Hearings Available

Glander said all merchants cited were being given a full opportunity to be heard.

"I recognize the severity of the penalty of putting a merchant out of business," the commissioner said. "We are careful to see that no injustice is done."

Glander said, however, the taxation department intended to obtain full compliance with the tax laws.

Merchants whose licenses were ordered revoked today include:

Lima, Harry Fritz; Mount Vernon, James W. Park-Robert Osmond, Osmond Specialty Co.; Mount Gilead, Kenneth Brown, R. D. No. 2; Newark, Ross Conser, Conser Heating Service; DeGraff, Jack Gutilla.

Of the 104 merchants cited today by the tax commission, 27 were in Cincinnati, 18 in Cleveland, nine in Columbus, four in Hamilton, two in Springfield, three in Steubenville and 43 elsewhere in Ohio.

"The citations are part of the tax commissioner's recently adopted policy of requiring uniform and consistent compliance with the sales tax law," Glander said. "All vendors cited have a right to a hearing under the provisions of the Administrative Procedure act.

The new citations include:

Lima, Albert O'Rourke, R. D. 2; Galion, Robert Via, Robert's Wine Store, 228 Harding Way East; Delaware, Robert C. Tracewell, Tracewell Sign & Art Studio, 9 East William street.

LETTERS FROM OUR READERS

WAR WIDOW'S PAY LOW

Editor of The Star: "Me too" is my only answer to Ronnie Klingel's letter published in the April 5 issue of The Star. I'm not a postman, but I do live on a government income, which is small pay for the life of a hero.

I'm a World War II widow and my income is exactly the same as it was four years ago. Prices of everything have gone up. Still I'm supposed to raise a family and make ends meet with not a cent increase in income to meet the cost-of-living. I, too, would like to know whom to write to in congress and where I could get a little consideration? Where can I get results and how?

War widows and war orphans are the forgotten people of our nation. We are sent a check once a month, if it's enough all right, and if it isn't, all right, and would we dare go on strike! We are so busy battling the world alone, trying to raise our children and managing the budget that we can't spare the time to strike. I wonder—would it do us any good!

When you citizens write to your senator or congressman with a good word for your postman, will you please add just a line for the widows and our children?

A WIDOW OF WORLD WAR II.

PONTIAC

LOWEST PRICED CAR WITH GM HYDRA-MATIC DRIVE

For all "one-car" families

For the family which has but one motor car—Pontiac is an extremely wise choice.

First, it is big and beautiful. You can drive it anywhere, any time, with the certain knowledge that it will be admired.

It also gives you the comfort you want, and need. It is safe, too—because it has big, sturdy brakes—and remarkable balance on turns and curves. It provides the performance luxury of General Motors Hydra-Matic Drive*. It is quick and nimble, easy to steer and park—a feature especially appreciated by women. And it is very economical—just as economical, in fact, as *any car you can buy.*

It is a rare car, indeed, which can offer *all* these qualities—every one of which is so necessary if a car is to meet the needs of an entire family. Because Pontiac *does* offer them, it is becoming the choice of more and more people every day.

ONLY PONTIAC HAS ALL THESE FAMOUS FEATURES

New Silver Streak Design • Unisteel Body by Fisher • No-Draft Ventilation • Shockproof Knee-Action • Triple-Cushioned Ride • Smooth and Economical Six and Eight Cylinder L-Head Engines • Scotch-Mist Quick Warm-Up Manifold • Gaselector • Vacuumatic Spark Control • Full-Pressure Metered-Flow Lubrication • Multi-Seal Hydraulic Brakes • Tru-Arc Safety Steering

GM Hydra-Matic Drive, Bumper Guards and White Sidewall Tires optional on all models at additional cost.

In Loving Memory

★Of our darling little daughter, Edith Alberta Clouch, who went to be with Jesus one year ago today, April 12, 1947. Born Nov. 28, 1937.

We watched her suffer day by day,
It caused us bitter grief
To see her slowly pine away,
And could not give relief.

Her weary hours and days of pain,
Her troubled nights are passed,
And in our aching hearts we know
She has found sweet rest at last.

God In His all-wise providence
Who knoweth what is best,
Has called from sufferings of this life
This little one to rest.

A place Christ promised to prepare,
And when it was complete,
He sent the summons for her to come
And fill the vacant seat.

No sickness, sorrow, death shall come
In that bright home so blessed,
But blood washed souls shall reign with him
Who gives sweet peace and rest.

To some life spans o'er many years,
To others life is brief;
Whatever lot may be the course,
With Christ there's rest and peace.

Sadly missed by

Sisters and Brother.

Could Cleopatra Drink a Pearl with Stomach Ulcer Pains?

An intriguing story of Cleopatra is the one where an admirer praised the beauty of two of her pearls, whereupon she dropped one into a glass of wine and drank it. She would hardly have done this had she suffered after-eating pains. If excess stomach acidity causes you distress after eating, or painful heartburn, gas, sour stomach, indigestion, even stomach ulcer pains, then try Udga for quick relief. Udga Tablets contain 3 proven fast-acting medicinal ingredients. Like a doctor's prescription, Udga works soothingly and fast. More than 210 million sold since 1928. U.S. Scientists Fail To Pierce "Iron Curtain"

By The Associated Press

PRINCETON, N. J., April 12—The nation's top atomic scientists say they have been unsuccessful in an attempt to pierce the Russian iron curtain on a scientific level.

Dr. Thorfin R. Hogness of the University of Chicago told a press conference yesterday the Emergency Committee of Atomic Scientists had sent several letters to Soviet scientists but had received only one reply.

That one referred them to statements of the Soviet's chief UN delegate, Andrei Gromyko. "Comrade Gromyko has expressed our views," Dr. Hogness quoted the Russian letter as saying.

The U. S. Scientists' group, headed by Dr. Albert Eistein, urged immediate diplomatic negotiations "at the highest governmental levels" in order to avert the "total collapse of our traditional civilization."

SILVER ST. P.-T.A. TO MEET

Two films, which present the purposes for the annual preschool clinic, will be shown by Miss Inez Kraner, city school nurse, at a meeting of the Silver Street school P.-T.A. Tuesday at 7:30 p. m. at the school. The pictures are "When Bobby Goes to School" which shows the advantages of having a child examined by a doctor before entering school, and "Winkie, the Watchman," which deals with dental care for the child. These films are being shown to urge parents to bring their children to the pre-school clinic which is to be held at Silver Street school April 28 beginning at 8:30 in the morning. Devotions at the meeting will be conducted by Clyde Tumbleson, and a toy band of first grade pupils, under the direction of their teachers, Miss Maude Alter, Mrs. Laura Carter and Mrs. Emily Wolf, will play a group of numbers.

"NO TRESPASSING" IN TREASURE HUNT

By The Associated Press

HIGHLANDS, N. J., April 12—The hunt for buried pirate treasure on the banks of the Shrewsbury river turned today into a battle of property lines.

With 21 old coins and the latch of an ancient trunk already uncovered, property owners posted "no trespassing" signs and summoned police reinforcements to halt the swarms of fortune hunters converging on the beaches.

Only place still open to all comers was the strip of municipally owned beach, already pockmarked by large craters left by the early rush of treasure hunters since the first old coins were found last week.

A coin dealer said the first finds were Portugese doubloons worth about $75 each. He said it was possibly pirate treasure.

Beachfront property owners had difficulty keeping their land clear of treasure hunters over the weekend.

More police were made available today, but authorities said they expected only a small portion of the weekend crowd. Men, women and children armed with old screens, pails and shovels toiled through the sands yesterday, many not quitting even during a sharp rain which fell through the afternoon.

FINED AT MT. GILEAD

Two drivers arrested by the state highway patrol Saturday were fined in Mt. Gilead Mayor's court following their arrest. Arthur Paden of Cleveland was fined $100 and costs on a charge of drunken driving and Delroy Grant, 24, of Sharpesville, Pa., was fined $20 and costs on a charge of speeding.

Akron Driver Fined By Mt. Gilead Mayor

Robert Miller Harvey, 21, of Akron was arrested on a charge of reckless operation and fined $25 and costs in the Mt. Gilead mayor's court following an accident two miles east of Mt. Gilead on route 95 at 10:10 a. m. Sunday. Harvey's car, traveling west on 95, hit a bridge and then struck an eastbound car driven by James Shelly, 66, of Wooster, causing considerable damage to both vehicles, the patrol reported. A passenger in the Harvey car, John Hughes, 33, of Gambier, suffered a dislocated knee and was treated by a Mt. Gilead physician. The state highway patrol investigated the accident.

Industrial Commission Sues Marion Ball Club

A suit has been filed in common pleas court by the State of Ohio against the Marion Baseball Club company, seeking a judgment against the Cubs for injuries suffered by a ballplayer in the 1946 season.

Judgment is asked for $823.26 plus interest from April 22, 1947, the date the state industrial commission returned findings in favor of Stephen Lazar of Olyphant, Pa., for injuries sustained June 16, 1946, while playing for the Cubs.

Filed by Attorney General Hugh S. Jenkins, the petition states the Cubs were sent notice of the industrial commission's findings and notice to pay claim April 27, 1947, and that the claim has remained unpaid.

Pedestrian Injured When Struck by Cab

Cecil Wilcox, 48, of 356 Commercial street suffered a fractured right leg and a slight head injury while crossing Silver street when he was struck by a Safety Cab driven by Herman R. Kilbury, 35, of 267 North Prospect street at 8:20 p. m. Saturday night.

He was taken to City hospital by the Gunder ambulance. Hospital attaches report his condition as "good" this morning.

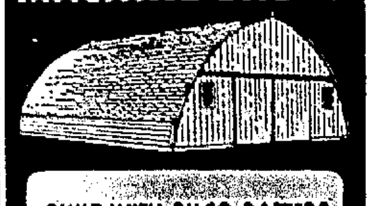
RILCO POST FREE MACHINE SHEDS



BUILT WITH RILCO RAFTERS MORE USABLE ROOM!

Here's the modern Rilco Machine Shed you've always wanted. Its interior is completely free of posts and braces giving wide unobstructed floor space. It makes it easy to get your machinery in and out. Plenty of height for larger implements. More protection for your machinery because this Rilco building is convenient to use.

Rilco Machine Sheds with their modern streamlined appearance are built with the famous engineered and factory-built Rilco Laminated Wood Rafter Arches. These rafter arches are delivered to your farm ready for erection. Saves labor hours and material.

Rilco rafter arches are the strongest known type of framing. They build stronger, sturdier, more wind-resistant structures. They are continuous framing members running from foundation to roof ridge, thus eliminating the joining of side wall to roof which is the weakest point of ordinary construction. Rilco rafters are securely anchored to sill with special Rilco angle irons and joined at ridge with Rilco metal ridge plates. You can obtain almost any floor size and height you want.

Come in and see us for more information. A Rilco Machine Shed will serve many uses on your farm—it's the most practical utility building.

TIP as to what's TOPS

POLLS seem to be the thing these days—so why not make your own?

Just bend a private ear to what's being said all around you—and you'll get a dozen tips a day as to what's tops in cars this season.

"My dear," one gal tells another, "it's even smarter *inside!* Everybody says it's the best-looking car on the road, but just wait till you sit in it!

"And it's so *easy* to drive! I never thought a big car . . ."

"I'm telling you, Jim," you'll hear a man say. "Get a car that's big enough!

"There's just no substitute for enough roadweight—especially with that Buick power plant to give you the get-up-and-go you want."

"Listen!" says another. "Here's the first car where I've really been comfortable! We pack the whole crowd in—kids and all—and those big three-person seats give 'em all the wiggle-room they want—and *still* let me handle the wheel in comfort!"

Then you may overhear a very, very bubbly individual who's driving a Dynaflow* Buick.

"Nothing like it," he says. "Nothing like it ever before. Don't ask me how it works, I'm no engineer—but it's the silkiest, smoothest, slickest thing I ever laid hands on—and I've driven 'em all!

"Why, I went up Ft. George hill the other day—slowed to a dead-stop halfway up—held 'er there—picked up—went over the top accelerating—*and never touched the control lever!*

"Never did *anything* but feed gas as I wanted it!"

And so it goes!

Power fans praising Fireball power. Comfort lovers going for Quadruflex coil springing and Safety-Ride rims. Folks who like quiet, singing paeans to Sound-Sorber top lining.

And everybody, yes everybody, agreeing there's only one true fashion plate—and you can spot it at a glance.

So why hold back? You'll never get to the top of a dealer's list that way! See that Buick dealer today—with or without a car to trade—and get your firm order in.

It Was Planned That Way

A MINOR mystery of the closing days of World War II why the United States did not let its ground forces occupy Berlin when they were within a few days of that goal—has been turned into a question of strategy by recent events.

Gen. Eisenhower had taken responsibility for giving the order that held up the American advance until the Russian army could reach Berlin first. But enough is known of the way in which strategy was decided to raise the doubt that he made the momentous decision to give Russia the prestige of occupying the German capital and the subsequent advantage of permitting the western powers to enter it on Soviet sufferance. Someone planned it that way, presumably for a political reason. On a military basis, the United States had the position, the power and the best justification for being the first of the Allied powers to reach the city.

The way things have turned out, historians will have special reason to place responsibility for a decision that threatened three years after, Germany's capitulation to squeeze the western powers out of the German capital entirely.

Displaced Persons

WITH ERP and the federal school aid bill out of the way, the senate will tackle the displaced persons bill as its next major item.

The DP bills pending in both houses are so hedged about with grudging quotas and provisos that it might be well for congressmen to consider population trends in this country. Since 1940, these population losses have been recorded in farm belt states: North Dakota 148,417; South Dakota 131,272; Wisconsin 99,528; Minnesota 97,022; Nebraska 92,586; Iowa 83,546; Missouri 119,912, and Kansas 20,659. Add to that the Mountain States' losses of 229,416 and the figure is well above 1,000,000.

Furthermore, these are becoming "old" states in the matter of the average age of farmers. In North Dakota it is 60. In Colorado it is 57. The young people of these states took war jobs or went into military service and have settled elsewhere.

The principal racial groups from which displaced persons would come would be Estonians, Latvians, Poles, Yugoslavs and Hungarians, hardy people who know the land and how to care for themselves in rigorous winters.

Minnesota and North Dakota are among the states that have formed commissions to check the population decline. They should take to congress estimates on how many DP's could find work in their states as farmhands, dairy workers, blacksmiths, farm machinery agency employes and in small-town businesses. America shouldn't regard admission of DP's as a favor done out of goodness of heart. Parts of the United States need new settlers as badly as the DP's need homes.

Balanced Military Power

"UNIFICATION" of the armed services, whatever good it has done and may do in case of war, hasn't done the main thing which the taxpaying public hoped it would do.

The various elements of the fighting forces are still competing for appropriations. The big Navy, big Army, big Air Force blocs are still trying to outdo one another, each one unwilling to take what might seem like an inferior position.

Secretary of Defense Forrestal, the man responsible for bringing about a balanced military power, is forced to deal with claims of the competing factions just as though "unification" never had been tried. The admirals, generals and their civilian friends seem to be drifting into the same irreconcilable attitudes that dictated a unification program as the first order of business at the close of the war.

Certainly the experiences of the war proved clearly that military power in a showdown is the product of cooperation. Ground armies need navies to supply them, navies need ground armies and air forces to do what they can't do—all elements must work together. The taxpaying public would find the cost of their creation and maintenance easier to bear if it could be certain that jealousy and bickering weren't adding anything to it.

Europe in the New World

AT THE Bogota conference, Guatemala is prepared to propose that all European territories in the western hemisphere be taken over by American powers. It isn't likely the proposal at present will go beyond the discussion stage. Guatemala's reason for making it is simple: she wants territory Britain claims, just as Argentina and Chile have claims on British-held land.

But if the spread of Russian control should reach the Netherlands, Denmark, France or Britain, the New World holdings of these countries would be a real cause for hemispheric concern. It must be remembered that Vichy France' West Indian possessions, as well as the St. Lawrence islands of St. Pierre and Miquelon, gave allied strategists many a grave doubt during World War II. New World territories held by satellites of Moscow would give them even graver doubts.

Scanning the Record

By George E. Sokolsky

ERP for Education of Young People Pressing Need.

MEN in a hurry undoubtedly are sure that they can save the world by bread and steel. But what when the bread and steel are used up? UNRRA poured money into countries and there is not a thing to show for all the effort.

The question presents itself: What is being done anywhere for the minds and skills of men? What is being done to train for leadership in the future? Are schools and colleges being rehabilitated; are apprentices being trained for work at skilled trades? UNESCO exists to do something about all this, but UNESCO seems to be another of those UN debating societies which works out expensive budgets and holds costly and prolonged meetings out of which come a plethora of words. Something more direct and more practical than UNESCO is needed. Its 1948 program, as worked out at a conference in Mexico City in November of 1947, leaves one with the feeling that very little of a permanent nature can be done by this body. For instance, this is what they set forth with regard to training for leadership and skills:

SOKOLSKY

"Approach the appropriate organs of the United Nations and the specialized agencies in order to ensure that in the development of reconstruction plans, proper attention shall be paid to the needs of reconstruction in the educational, scientific, and cultural fields."

One almost says to that: "So what?" What is needed immediately, say for a country like Germany, is the re-establishment of their formerly magnificent system of trade schools. This is essential not only because a generation is growing up without skills and therefore without the ability to live an independent and productive life, but also as a resistant to communism, for youth that is hopeless, without prospect and without opportunity, naturally gravitates to a revolutionary movement.

Fusses Over Form

UNESCO, even as late as its 1948 program, urged upon its director-general to "combine under a single administrative head the activities of the organization in fundamental education and other forms of education, for the purposes of mutual strengthening of these related activities and of closer coordination of educational activities with all aspects of UNESCO's program."

Like so many UN organs, they fuss over organization, procedures, forms, investigations, the wording of resolutions, but they fail to get quickly to the heart of the problem and the job itself. The heart of the problem is how to restore schooling for leadership in Europe and how to create the skills in a youth that has been dispossessed by war. The job is to rehabilitate schools.

Some of the ERP money could be used for this purpose. For if one looks at the bookkeeping of ERP, what apparently will happen with most of the contribution will be that the United States will give commodities to governments; these governments will sell those commodities to their own people or elsewhere; many of these sales will be to countries behind the iron curtain, for there is not one word in ERP to prevent that; each ERP country will deposit currency in its central banks equal to the import value; that fund is to be disposed of by joint decision for the benefit of the country concerned. Nothing will be returned to the United States, in my opinion.

Suggestion To Hoffman

Why should not the administrator of ERP, Paul Hoffman, include in his contracts a quota for the rehabilitation of trade and technical schools? No provision in the act passed by congress forbids that. Certainly as the intent of the act is to strengthen the so-called democracies, nothing could more effectively and permanently strengthen them.

In Germany, which is carried not by ERP but by the war department, this is a matter of immediate moment because Hitler exhausted both the leadership and the skills of Germany; in the war years, the best of the population was killed off, and since the war, youth has been so torn by the frightful social and economic conditions that it does not know which way to turn. It often turns to revolution and communism.

To avoid wasting our bounty as the UNRRA funds were wasted, such questions need to be settled now, in advance, and not next year when the funds shall perhaps have been dissipated.

Problem in German Policy

By Walter Lippmann

THE British military governor, Gen. Sir Brian Robertson, Wednesday addressed the Parliament of the German state of North Rhine-Whestphalia, which includes the Ruhr.

The address had been approved by Ernest Bevin and must be taken also as a declaration of what has now become our own German policy.

There is to be a German central government in Frankfurt, set up with Anglo-American support, which is to compete with another German central government, to be set up in Berlin or Leipzig, with Russian support.

LIPPMANN

Both German governments will then claim they represent the unity of Germany, and a contest will be waged by the two German governments to win the support of the masses of the German people.

According to this policy the Frankfurt government will both work for reunion with the eastern Germans and administer western Germany as an integral and essential part of the European recovery Program and of the western union.

It would be easier to feel confidence in the success of the Anglo-American policy if it were not that for at least two years, and openly since the Molotov statement of July, 1946, it has been the aim of the Soviet Union to make itself the champion of German unity under a German central government.

Presumably the Russians would not have initiated this contest for German unity if they had not felt reasonably confident that it was a contest which they could win.

So we must hope, the British government, which made the present policy, and the American government, which has come around to it, know what they are doing, and have not committed themselves irretrievably without a very clear idea of how this struggle for Germany is to be conducted.

They have had ample and repeated warning from Europeans and from Americans who know Europe and Germany and the history of German-Russian relations.

Conceivably Gen. Robertson is right when he says that "these are strange times. They have no parallel in history."

History Repeats

But he would do well to bear in mind the saying that those who do not learn from the experience of history are doomed to repeat it.

When, for example, he told the Germans "to make the best of the largest part of your country which is on the right side of the 'iron curtain,' the rest will come in time," he was telling the Germans that "the rest"—that is not only the Soviet zone of what is now Germany but also the lost provinces in the east—will be restored to them.

By whom? By Great Britain and the United States? Or by the Soviet Union?

The answer to these questions is the crux of the German problem.

No German can possibly talk about German unity, and not mean by that the restoration of most, if not all, the territory behind the front of the Red Army.

Now what is the situation, then, of the Frankfurt government which we are dedicating to the restoration of German unity? Is it not that to get back eastern Germany it must either fight Russia or make a deal with Russia?

If the Frankfurt Germans ally themselves with the western powers in order to get back eastern Germany, they can get it back only as a result of war in which Russia and Poland were defeated. Germany would be a principal battlefield of such a war.

Molotov's War

On the other hand, Molotov is also offering them "German unity." Molotov, however, can, if he decides to do it, give them back the eastern lands. For he has them and Beven does not have them.

So, despite Gen. Robertson's idea that these times "have no parallel in history," the parallel of the repeated German-Russian agreements from Fredrick the Great to Hitler will inevitably occur to the Germans and to the Russians.

It will be advisable, therefore, to begin thinking now how we propose to win this struggle between our German government at Frankfurt and the coming Soviet's German government in Berlin or Leipzig.

We have now promised the Germans "unity." The Russians have promised them "unity." We have promised them the one thing which, without a world war, it is not in our power to give them.

The Russians have promised them the very thing which only Russia can in fact give them. Russia can by a treaty of peace with its Berlin government cede back the lost territory. And then what would the Frankfurt government do?

Perhaps someone will explain, though no one has as yet, how Bevin expects to win this contest.

Vets' Memorial

By The Associated Press

PHOENIXVILLE, Pa. — The American Legion auxiliary of Pennsylvania has donated a $20,000 fully-equipped greenhouse to the Valley Forge General Hospital.

It was dedicated to "those who fought and died to preserve their nation; to those who fought and suffered the ravages of war, and to those still living sound in body and mind who must work for a perpetual peace."

CIO and Eisenhower

By Joseph and Stewart Alsop

WASHINGTON

THE measure of the President's political plight is very simple.

The very labor leaders who were Franklin Roosevelt's praetorian guard—the leaders of the CIO—have made up their minds not to support Harry S. Truman if he is renominated. The recently adopted CIO strategy, which will be the nail in the Presidential coffin, may be summarized as followsw:

The CIO will make a tremendous effort, in conjunction with the AFL, to defeat all senators and representatives who voted for the Taft-Hartley act, and to elect pro-labor lawmakers in their places. It will continue bitterly to oppose the candidacy of Henry A. Wallace. But if Truman heads the Democratic ticket, the CIO will simply ignore the whole presidential contest.

This remarkable strategy of the CIO leadership is traceable, in turn, to another vitally important phenomenon. The Communist decision to launch a third party movement precipitated the present bitter struggle between the CIO's Communist minority and anti-Communist majority. The anti-Communists, as a result, have come to see the national political picture entirely in terms of their own internal struggle. In this struggle, Truman is the greatest handicap to the anti-Communists. Rank and file indifference or hostility to Truman is now so rife in the labor movement that the CIO leaders like Philip Murray could not back him, even if they wished to.

CIO Favors Eisenhower

This, of course, is the origin of the remarkable plan of the CIO leaders to support the candidacy of General Dwight D. Eisenhower, which was formulated at the same time as the strategy of not backing Truman. Eisenhower was chosen as the CIO's standard bearer in the face of pretty good information that he would have voted for a moderate version of the very Taft-Hartley act which the CIO calls the "slave labor law." Yet the CIO leaders are actively promoting the Eisenhower movement. Walter Reuther, for example, conferred at length with Franklin Delano Roosevelt Jr. before young Roosevelt issued his pro-Eisenhower statement. And Philip Murray would also have come out publicly for Eisenhower by now, if he had not feared to force the general's hand.

The CIO chieftains want Eisenhower, Taft-Hartley or no Taft-Hartley, simply because he has the rank and file appeal that Truman lacks. The best evidence that this is correct is the extraordinary Communist campaign of vilification against the general. The best experts in labor circles estimate that substitution of Eisenhower for Truman would cut in half the total vote polled by the Communists' candidate Wallace. No wonder the Communists fear the general.

Finally, this fear must be especially acute, since Wallace is fairly likely to be all that the Communists have. Their grip on him is tightening daily, to be sure. Lee Pressman, former CIO leader whom Wallace once fired from the agriculture department as a dangerous left winger, is now a leader of the Wallace "steering committee." David Ramsey, who has been one of the two or three most important theoreticians of the American Communist party, is now known to have helped prepare the Wallace ramblings before the house foreign affairs committee on the ERP. Wallace is being used with increasing openness as a Communist stooge, as when he intervened to back the Communist faction in the United Electrical Workers.

Question for Commies

But for the Communists, the real question is whether gaining Wallace is worth the loss of control of great key labor unions, like the CIO electrical workers. From Philip Murray down, the CIO leaders are now at work driving out the Communists, root and branch. Not only the electrical workers, but also the mine, mill and smelter workers, the maritime union and all other Communist strongholds in the labor movement are now under urgent attack. Such episodes as the defection of the transport workers' Mike Quill, following the maritime workers' Joe Curran, and the transfer to the United Auto Workers of vital electrical workers' local, suggest that the Communists are losing the first round in this struggle. The CIO anti-Communists are confident of pretty complete victory in the end, provided they do not pin the Truman label on themselves.

Altogether, the signs are that the Communist high command, and their masters in the Soviet Union, made one of their habitual miscalculations with Wallace. Their objects in pushing the Wallace third party were to defeat Truman, to elect an isolationist Republican of the stripe of Robert A. Taft, and to capture leadership of the working masses. Truman would probably have defeated himself in any case. The Kremlin's worst villain, Senator Arthur H. Vandenberg, is much more likely to reach the White House than is Taft. Simultaneously, the Communists may lose such key unions as they still control. It is a pretty poor score, so far.

Roving Reports

By Hal Boyle

NEW YORK

AMERICA, more than any other country in the world, is a land where people expect something for nothing or a lot for a little. This philosophy makes for much unhappiness and has its detrimental moral aspects—but it also helps explain our national greatness.

Hatred for long, hard labor is international but here in America it amounts to a passion. The result is our industrial civilization.

Hal Boyle

We like to think that we live by the twin mottoes — "the used key is always bright" and "early to bed, early to rise, makes a man healthy, wealthy and wise."

But if an unprejudiced man from Mars arrived here to study our way of life he probably would reach the conclusion that our real guiding proverbs were:

(1) Nothing ventured, nothing gained."

(2) "All work and no play makes Jack a dull boy."

The desire to get something for nothing, or much for little, is probably one of the most deeply rooted human characteristics.

IN WARTIME this showed up conspicuously in the looting done by all armies, allied as well as enemy. I saw honorable men who had lived all their lives in honesty go delirious with joy as they pawed through rubbled homes for souvenirs of any kind to send the folks back home. They were seized, as by a mania, with the guilty but ecstatic happiness of grabbing gimcracks that didn't belong to them — things they wouldn't have in their houses if they cost a nickel of their own money. But they perspired with pleasure over getting anything they hadn't paid for with their own sweat. This has always been true, and the only way to change it would be to repeal human nature.

But in Europe the cream has long been drawn off. The common man — except in countries where he is reaching for communism's promised pie-in-the-sky—is born to the tradition that he must work hard to get little.

IN AMERICA the cream still stands in the bottle. Some cream at least. The working can still is influenced less by the idea of security than by the principle "take a chance—you may strike it rich."

Here the man who lives by brain or hand doesn't want callouses on either. He works chiefly to gain leisure—although he hasn't learned yet how to use his present leisure well. But he wants more time to play and do the things he likes. He wants machines to do the sweating—and what country has more machines, in home or factory? In British offices charwomen still get down on their knees to scrub floors. Here a bered man cleans them quicker by pushing a whirring gadget.

Something for nothing . . . a lot for a little. . . .

Frank Woolworth made millions out of dime store bargains. Men doze at their offices, housewives yawn at their chores—hollow-eyed from staying up late in an attempt to get wealthy by naming "Miss Hush" or "The Walking Man."

SOMETHING FOR NOTHING . . . a lot for a little. . . .

Whole industries are built on it—radio, horse racing, auction sales. Slot machines keep the country clubs going, bingo games help build a church faster.

Take a chance . . . a lot for a little . . . something for nothing. . . .

A big nation built by big and little gambles. And why not?

"It's a free country."

Hero of Iwo Jima Rites To Be Held

Special to The Star

BUCYRUS, April 12—Military rites for Lt. Harry L. Martin, hero of Iwo Jima three years ago, will be held Wednesday at 2 p. m. in Grace E.-U.B. church. Rev. J. Paul Jones and Rev. Kenneth Stover will officiate. Burial will be made in Oakwood cemetery.

Lt. Martin won posthumously the medal of honor, highest award, formerly termed the congressional medal. His parents of near here, Mr. and Mrs. Ralph Martin (Mrs. Martin formerly Stella Linn) received it in Washington in May, 1946.

Lt. Martin would be 37 years old. He was a graduate of the Bucyrus High school. At the time of enlistment he was working for an Arizona credit firm.

Aside from his parents, survivors include a brother, Robert of Tiro, and a sister, Mrs. Eleanor Abbott of Holmes township.

OAKLAND GROUP MEETS

The W.S.C.S. of Oakland Evangelical United Brethren church met Thursday afternoon at the church with Mrs. Maxine Ritzler presiding in the absence of the president, Mrs. George Leedom. Group singing opened the meeting and devotions were conducted by Mrs. Clifford Ward. Mrs. Darrell Vermillion presented the lesson study, assisted by Mrs. Edwin Vance, Mrs. Gorden Buckley, and Miss Maxine Cashell. The society voted to support a Bible woman of China for a year. Prayers by Mrs. Rhinehart, Mrs. William Cox, Mrs. Olga Disbennett and Mrs. Saul Hecker closed the meeting. The next meeting will be May 13.

PARENTS MEET

A meeting of the parents of children of the Tiny Thinkers Kindergarten operated by Mrs. Ruth Leatherman at 325 Summit street was held Thursday night at the home of Mrs. Leatherman. Twenty-two persons were present. The program was led by Mrs. Edward Converse who studied art and psychology at Ohio State university in Columbus and took further art courses at the American Academy of Art in Chicago. Mrs. Converse gave a short talk on the background of art education and demonstrated how an art instructor would analyze the paintings done by the children of the kindergarten. A discussion followed. Refreshments were served by Mrs. Leatherman.

Love's Perilous Path

By ADELE GARRISON

"NEVER mind my imagination," I said a bit tartly in answer to Dicky's gibe about the probable delay in our return journey. "Just use your own common sense. I have every last detail of instructions ready for Katie, for Jim, and for the Ticers. It won't take me fifteen minutes to hand them out. There are only two things I wish to ask of you."

"Name them, your Majesty," he said with his familiar teasing manner strong upon him, "and accept my most humble apologies for doubting your infinite wisdom. As for the favors, they shall be granted even unto the half of my kingdom."

"They won't take half an hour," I said, "and if you'll restrain your desire to be funny, I'll tell you what they are."

"Now I ask you is that nice of a loving wife" he asked, then sobered instantly.

"I'm listening," he said, and I spoke quickly.

"What do you plan for Georges when he has finished the interview with me which he has requested?" I asked.

"I'm going to turn him over to 'K.'" he said. "Dad has put him in charge of 'K.'" he said, and they are to occupy this suite of Dad's, unless it's necessary to trek him downstairs to the subterranean secret chamber. I'll tell 'K.' to be ready to come over here as soon as you give the 'all clear' sign."

"May I amend that a bit?" I asked.

"Sure thing. Go ahead and amend."

"I want a few words with 'K.' about the wedding, unheard by Georges," I said.

"That's easy," he answered. "K.'s luggage and Georges' are all over here anyway. All 'K.' has to do is to walk through the door, and it doesn't make any difference just when he does it. The only thing that does matter, is that Georges shouldn't be left alone over here. So I'll stroll in when you're finished, and you can say you have to see Katie about something. I'll casually ask you to send 'K.' over if you see him, and I'll have our FBI darling stationed somewhwere so you can't help stumbling over him as you come down the hall.

"Georges and I will keep each other company until 'K.' ambles in. But don't make your confab too long. I can stand just about so much of Georges before rushing for the rail of the steamer."

"You're a cruel, hard-hearted monster," I told him, "but I love you, and I'll be ever so grateful for your getting 'K.' over here."

He gave me a speculative look.

"I suppose that's one of the two delaying errands you mentioned," he said. "That ought not to take long."

"Less than five minutes," I assured him.

"Good. What's the other?"

"That will take a little longer, but I won't have to spend too much time on it," I said. "I shall want the car to stop between Bridgehampton and Southampton, at a florist's place on a side road."

"Have you gone nuts?" Dicky asked, with astonishment in his voice. "At this hour? There won't be anybody there?"

"Oh, yes there will," I said calmly. "They live there."

"But you'll have to have Gabriels trumpet to waken them," he protested. "Won't that draw attention to the car?"

"There wont be a loud sound," I assured him. "Just leave it to me. But, you haven't told me, do you think the car can detour that much? I won't do it if you don't think best, but it will save me a lot of trouble if it can stop."

132 Head of Lambs Offered in Ashley Pool

One hundred and thirty-two head of lambs were consigned by five farmers to the Ashley Lamb Pool on Thursday, April 8. Thirty-five of these graded blue and sold for $23 per hundredweight, 26 head graded red and sold for $22 and 40 graded yellow and sold for $20. The balance of the consignment sold for $17. All lambs were clipped and no sheep were offered for sale.

One more pool will be held on Thurday, April 22, which is the last for the season, Jesse Foust, chairman of the sheep improvement committee, announced. He also said that plans were being made for a banquet and annual meeting to be held in the near future.

Air pressure at sea level is about 2,100 pounds per square foot.

Water vapor may compose up to five per cent of a given volume of air.

The weight of the air at sea level is about that of a layer of water 31 feet deep.

HYBRID SEED CORN FAR AHEAD IN NORTH

By The Associated Press

WASHINGTON, April 12—The 12 north central states have far out-stripped the south, their closest corn-producing competitor, in the percentage of corn acreage planted with high-yield hybrid seed.

The agriculture department reports this in its latest bulletin on the feed situation

The north central group has steadily increased its use of hybrid seed corn from virtually zero in 1933 to 82.5 per cent of all its corn acreage planted last year This area contains some 65 per cent of total U S. corn acreage.

The southern states with about 30 per cent of U S corn acreage, have only 27 2 per cent of their cornland planted to hybrid seed.

The result, said the department, is that while yields in the north central region have risen about one third above levels of the 1920's, those in the south have increased only moderately

Yields in the north central area have been averaging close to 40 bushels an acre in the past few years The department said a large share of the gain is attributable to use of hybrids

RADIO SLIPUP KEEPS M'CARTHY OFF AIR

By The Associated Press

HOLLYWOOD, April 12 — Charlie McCarthy's radio program last night was just a "dummy run."

Comedian Edgar Bergen put the usual impudent words in Charlie's mouth and the words came out all right but a nationwide National Broadcasting company audience didn't hear them.

An unexplained slip-up in telephone line relay connections turned the $25 000 show into just another rehearsal for Bergen and his troupe and a half-hour of piano music for listeners.

The program originated—or was supposed to—at Claremont, 25 miles east of here. NBC said its program engineer checked cables from the stage to the jackbox and that the microphones were carrying sound from the auditorium. From that point it vanished

NBC is checking to determine who will have to foot the $25 - 000 bill but the sponsors are protected against such an eventuality

Line trouble also briefly blacked out the Jack Benny program. Benny was off the air for two and one-half minutes when trouble developed between Palm Springs Calif where the program originated, and Hollywood

Another line trouble casualty was the Elmo Roper program, a public opinion poll analysis The first 25 seconds were lost on the Columbia broadcasting system network yesterday afternoon because of difficulties on a line to New York from New where the program origin

Commenting on the Bergen blackout, an NBC man said in New York th an entire program is lost, is paid and the network reoate to the sponsor.

CLEVELAND, April 12—Mrs. Martha Taft, wife of Ohio Sen. Robert A. Taft, will give addresses at nearby Painesville and Bratenahl Wednesday night in support of Taft's candidacy for the Republican presidential nomination. She also will speak here April 26 on the same subject.

LEGAL NOTICE

In the matter of the Single County Ditch, No. 394, petitioned for by Ward Walton, et al.

To each person signing or named in the petition and to each other person affected by said improvement.

You and each of you are hereby notified that on the 7th day of April, 1948, the above named petitioner filed a petition with the County Auditor of Marion County, Ohio, for the construction, reconstruction, straightening, deepening and widening of part of the Sweeney Single County Ditch and cleaning out and repairing of the north branch of the tile ditch. The construction of the improvement is necessary and will be conducive to the public welfare.

The following is the course and termini of said proposed improvement, to-wit: Commencing at a point in the open part of the Sweeney Ditch at the end of the tile that comes from a northeasterly direction; said point being known as Station 102-40 and said point being in the west half of the northeast quarter of Section 26 on lands owned by Lester D. and Elva M. Watts; thence following the course of said Sweeney ditch in a westerly direction through the lands of the said Lester D. Watts being the northwest quarter of Section 26 crossing the county road No. 26 at a point about 30 rods east of the northeast quarter of Section 27; thence continuing in a northwesterly direction on the line of said Sweeney Ditch about 40 rods or far enough to give a good and sufficient outlet. Said open part being about 1½ miles in length. Being in Salt Rock Township, Marion County, Ohio. Also beginning at the end of the tile at said Station 102-40, and being the north tile drain and following the same in an easterly direction and clean out said north tile drain and replace all broken tile with new tile of the same size and continuing in an easterly direction so far as said tile drain needs repairing and cleaning out. Said tile drain is referred to as the Sweeney-Goose Pond Ditch No. 366. The length of said tile drain that needs repairing and cleaning out, in the opinion of the petitioners being about 1½ miles, making a total length of said ditch of both open and tile 2¾ miles.

It is claimed that the improvement will affect property owned by you.

You are therefore notified that the Board of Commissioners of Marion County, Ohio, have fixed the 29th day of April, 1948, at 10 o'clock A. M., at the upper terminus of the improvement for the view thereon and have fixed the 6th day of May, 1948, at 10 o'clock A. M., at the office of the County Commissioners in Marion, Ohio, as the time and place for the first hearing on said proposed improvement.

LEWIS

(Continued from Page 1)

last Saturday he accepted a post as "neutral" trustee of the miners welfare fund.

This fund, running into millions a year, was created by an agreement last year for 10 cents a ton royalty on every ton of coal mined. The 10 cents goes to the fund.

The plan calls for $100 a month pensions of miners age 62 with 20 years service who retired after May 28, 1946.

That was the date the government—then in possesion of the mines—signed an agreement with Lewis establishing a welfare fund for the miners.

The mine owners accepted the agreement for the welfare fund last year.

Lewis had demanded a $100 pension for miners 60 years old with 20 years' service, but also wanted all members of the United Mine Workers to be eligible.

Would Bar Some

The UMW has members at some mines which have not paid money into the welfare fund. The operators took the stand that only miners employed by paying-mines should be eligible.

Bridges proposed that $5,000,000 be set aside from the $32,000,000 collected thus far by a 10 cents' a ton royalty, for payment of the pensions under his arrangement.

The strike began three days after Lewis told the miners their 1947 contract had been "dishonored."

The Bridges arrangement was only a tentative settlement because, he said, "the decisions we as trustees make are not unchangeable."

"The opportunity to change them at any time is guaranteed," Bridges added.

The announcement of the agreement was made 20 minutes before the UMW chief and the union were to be hailed before Justice T. Alan Goldsborough for contempt of court for failing to call off the strike as ordered on April 3 by Federal Judge Matthew F. McGuire.

The Bridges plan was approved by a 2-1 vote of the welfare fund's trustees, Bridges and Lewis voted for it.

Van Horn Gives Reasons

Van Horn told reporters he voted against the plan for two reasons:

1. He believes the age 62 for pensions is too low.

2. He believes the $100 monthly benefit cannot "be sustained by the pension fund," that there will not be enough money from a 10-cents-a-ton royalty.

Van Horn said the Bridges plan is practically the same as what Lewis had wanted all along, except that the retirement age was put at 62 instead of 60 years.

Bridges, present while Van Horn talked to the reporters, put in: "This is only a temporary basis of payments which can be reviewed later."

Lewis said testily:

"I have nothing more to add, except that the mine workers understand that the coal operators are still against pensions."

But Lewis did add that he approved the Bridges plan "somewhat regretfully" because while it was not all the union was asking the union acted to end the strike and to alleviate the coal shortage.

Lewis said he acted, too, "conscious of our commitment" to Speaker of the House Martin.

Martin stepped into the deadlocked coal strike situation suddenly on Saturday and succeeded in getting both Lewis and Van Horn to accept Bridges as the third and "neutral" trustee of the disputed welfare fund.

Van Horn made it clear he considers payment of pensions to miners or former miners whose employers have not contributed to the welfare fund to be illegal under the Taft-Hartley act.

Coal operators said Van Horn could, if he chose, later attack in court any payments to miners or ex-miners for whom no contributions had been made to the fund.

Puts Country First

Bridges said it was his view the country's welfare demanded an agreement of some sort which would get the miners back to work. He emphasized that the agreement can be changed later if study indicates it should be changed.

He said:

"In my opinion it is better for the country that we accept any possible risk of action rather than see the national security and welfare threatened by our refusal to act.

"I, therefore, offer my resolution as a basis for our tentative agreements from which we can go forward sincerely to our exhaustive study of all the issues and all the evidence."

COMMUNITY CONCERT PROGRAM ASSURED

Artists and Dates Now Being Chosen for Season.

With memberships numbering 1,472, the annual campaign of the Marion Community Concert association came to a close Saturday night and assured local patrons another worthwhile and entertaining concerts course for the 1948-49 season, officers of the association announced today.

Of this number 1,303 are adult members and 172 are students. Following the close of the campaign officers of the organization met with the Community Concert Services representatives, Harold Welch and Orrin Juel of New York City, to select talent for the forthcoming season. Tentative dates and entertainers were chosen and there will be announced as soon as details are completed.

There is one concert remaining in the current season's concert list. This will be presented on Tuesday, May 4, by the St. Louis Sinfonietta, a little symphony of 20 artist-musicians.

Mrs. Karl W. Schell is president of the concert association and the membership campaign was under the direction of Mrs. Harold K. Mouser and Mrs. Fanny Benson, co-chairmen.

ROOSEVELT STATUE UNVEILED IN BRITAIN

By The Associated Press

LONDON, April 12—Britain's memorial to President Roosevelt was unveiled by his widow and dedicated by King George VI today—the third anniversary of his death.

While thousands watched, Mrs. Franklin D. Roosevelt pulled a silver cord to disclose a 10-foot bronze statue of the late president, standing bareheaded, his cloak thrown back. Onlookers fell silent.

Then the king stepped forward past honor guards of American and Royal marines to lay a wreath at the foot of the statue, under the simple inscription, "Franklin Delano Roosevelt."

Following him, Mrs. Roosevelt and then other officials placed wreaths at the statue's base.

The sculpture is the central figure of memorial gardens in front of the United States embassy in swank Grosvenor Square.

In inviting Mrs. Roosevelt to unveil the monument, the king told British listeners it would be a "permanent reminder of our comradeship with the American people in the dark days of the war."

"It will remind us of the importance and value of that comradeship," he said. "We shall, as we look at it, renew our pledge to continue to share with that people the ideals of peace and freedom for which President Roosevelt strove with such untiring faith."

SURVEY ASKS HIGHER GALION POWER RATES

Service Director Cites Low Charges, Expansion Needs.

Special to The Star

GALION, April 12—An increase in the electric rate for service from the municipality owned power plant here has been asked in a report of John F. Porter, safety and service director. The report was in the hands of council committeemen today.

Not only to take care of possible increased facilities for carrying the load, but to keep pace with increased operating costs, the increase is recommended. The survey shows the present domestic rate for Galion to be the lowest of 90 cities for consumers using less than 80 kilowatt hours per month.

The domestic rate suggested in the report asks for a 75 cents minimum monthly bill for the first 15 kilowatt hours consumed. The present minimum is 50 cents. Likewise changes are listed for industrial and commercial consumers.

Present income is insufficient to provide any extensive rehabilitation program, which seemed likely in recent years because of complaints over seeming inadequancies of supply at certain times, especially because of heavier demands by industrial users.

The industrial rate increase would call for a minimum charge each month of 65 cents per horse power of connected load. Consumers with connected transformer capacity over 200 KVA would have a power factor bonus with penalty above and below 85 per cent respectively.

Rates now in effect have been unchanged since 1937, costs such as for fuel, labor, materials, and service have risen sharply since then. The rate study was recommended by council. Last year the Galion Electric department's total operating cost was $203,000.

The report states that domestic rate increases would not be above the average of 90 cities in the 5,000 - 25,000 population range shown in the Federal Power Commission's report of 1947, termed "Typical Residential Electric Bills."

COAL SHORT PLANT MAY LESSEN GALION POWER

Special to The Star

GALION, April 12—The city coal pile is dwindling to the place where city officials advise that a 50 per cent reduction in electric current generated at the Galion municipal light and power plant will be necessary if the coal strike is not definitely settled within the next week.

On March 18 the Galion light plant had 2,400 tons on hand. Since that time about 1,500 tons have been burned leaving the city with slightly more than a 1,000-ton supply. This amount would last 20 days with full power generated at the plant. It has been pointed out that it will take 10 to 14 days for additional fuel to arrive in Galion after the strike is settled.

With electric energy out, it will be necessary to curtail the amount to industry. On a 50 per cent reduction, the light plant would generate 2,500 KWH. This amount of power will be sufficient to supply all residences and essential consumers such as the hospital and water works, city officials have pointed out.

And then!

SOVIET ENVOY CALLS ON CZECHOSLOVAKIA'S BENES —Callers at home of Czech President Eduard Benes (left) in Prague are Soviet Ambassador Michail Alexandrovic Silin (right) and Czech Foreign Minister Vladimir Clementis.

In Plain Words

By James Marlow

HARRY S. TRUMAN became president of the United States three years ago today.

Those three years have been rough since he became president April 12, 1945, the day President Roosevelt died.

Mr. Roosevelt had snapped a stinging whip over congress which his Democrats had run for 12 years. Mr. Truman tried to be different.

He went into the White House like a lamb, anxious to get along with congress, dashing up to the capitol for lunch with his old senate chums.

James Marlow

And, in turn, everyone seemed friendly toward him, with a sort of "give him a chance" air — Democrats and Republicans alike.

Everyone could afford to be friendly all around at the time, which was April, 1945, because:

1. We were still up to our necks in World War II, although winning it.

2. And the 1948 elections were still three years away. Why throw brickbats out of season?

Germany got knocked off. Then Japan. Mr. Truman and his Democrats backed the United Nations. So did the Republicans.

With the war ended and the United Nations taken care of—so it seemed — everyone turned to getting straightened out at home.

Then the egg broke.

In September, 1945, Mr. Truman made a batch of suggestions, some for immediate use, some long-range.

THEY WRAPPED UP his ideas on how this country could walk down the road to peace and prosperity.

He got the ice water treatment from congress where his own Democrats were in control. Congress did almost nothing he suggested.

He was so burned up by Christmas time that he went on the air in an appeal to the people to jog their congressmen into action.

He's had a tough time ever since.

And in November, 1946, the people elected a Republican congress. Some of his own Democrats urged him to quit when that happened.

The Republicans, controlling congress since January, 1947, have handled home problems pretty much their own way, trampling on Mr. Truman's notions.

IT'S BEEN DIFFERENT on foreign affairs. Just as in wartime, the Democrats and Republicans have more or less closed ranks to stop communism.

But our foreign affairs haven't been too happy. Communism has continued to spread.

The President laid down his "Truman doctrine" for stopping communism by giving help to Greece and Turkey. Both parties backed him on that.

Both parties back him too on the European recovery plan for helping 16 European, non-Communist nations.

And both parties seem willing to back him on building up this country's armed forces—just in case there's a World War III.

But some of his biggest bruises have come from within his own party. They may mean he won't get a chance to run for president in the November elections—or get beaten if he does.

WHEN HE PROPOSED his civil rights program for bettering the treatment of Negroes in the south, the Southern Democrats turned against him. They don't want the Democrats to run him for president.

This southern feeling has started other splits in his party, with some of the city bosses looking at him with a sour eye.

And when Mr. Truman fired his secretary of commerce, Henry Wallace, in 1946 he started something no one then thought would happen.

Wallace has set up a third party, is running himself for President, and is bound to bite into Democratic votes if he stays around till election time.

All this has given the Republicans their best hope of capturing the White House since Mr. Roosevelt moved in there back in 1933.

CHURCH CORNERSTONE REVEALS TAFT HEADLINE

By The United Press

CLEVELAND, April 12—The cornerstone of the Windermere Methodist church here was opened Saturday after a fire two years ago had destroyed the church.

In the cornerstone was a 1908 newspaper with the headline: "Will Taft Be Nominated?"

The 40-year-old paper referred to William Howard Taft, father of the present aspirant for the Republican presidential nomination.

Large Farm Profits Seen in Grass Crops

By The United Press

COLUMBUS, April 12 — An Ohio State university professor said today Ohio farmers can make $200 to $250 an acre by letting their farms go to grass.

Harold Kaeser of the OSU husbandry department explained that improved Ohio pastures produce enough feed per acre to make 50,000 pounds of milk and that the milk will sell for $200 or more. But, he pointed out, while the farmer will not have to do any plowing or cultivating, he will have a great deal of milking to do.

The dairy expert warned farmers not to depend on blue grass pastures alone because this kind of grass goes on vacation in hot weather. Instead he suggested sudan grass, legumes or second growth to carry livestock through midsummer. He added that application of lime fertilizer will double or triple the yield of most unimproved pastures.

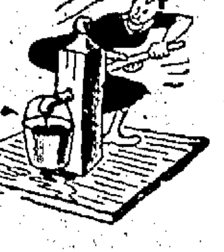
Those "good old days"

—Would you really want them back? . . . Take wash day fifty years ago, for instance . . .



First you pumped buckets of water and lifted them to the stove for heating

You filled the tubs, rubbed and scrubbed . . . Then filled and emptied them again for several rinsings!

No wonder wash day was called "blue Monday" and left the housewife looking like this!

21ST ANNIVERSARY MARKED BY CIRCLE

Daughters of Isabella Event Here Attended by 200.

Initiation of a class of 95 candidates was followed by a banquet when Our Lady of Victory Circle No. 388, Daughters of Isabella celebrated the twenty-first anniversary of its founding yesterday. State officers, including Miss Margaret Quinlisk of Chillicothe, state regent, and Mrs. Mildred Bowman of Sidney, state secretary, and guests from out-of-the-city circles, were present for the work and social hour. Members of the local degree staff conducted the initiation held in the Elks' hall in the afternoon.

Miss Geneva Kruskamp, a past regent, presided as toastmistress for the banquet held in Moira hall, and the invocation was spoken by Very Rev. William J. Spickerman, V. F., pastor of St. Mary Catholic church and chaplain of the circle. The welcome to the new members and candidates was by Mrs. Mary Maxwell, regent, and the response was given by Miss Helen Lawler, one of the afternoon's candidates.

In an informal talk Miss Quinlisk addressed her remarks for the most part to the new members.

Leading exemplary lives by precept as well as example is the challenge to Catholic women today, Rev. Spickerman stated in a brief talk.

Music for the dinner hour was by members of St. Mary Parochial High school a cappella choir.

Banquet guests included Rev. Leo Bennedetti, assistant pastor at St. Mary church, Floyd Cornely, grand knight of Marion Council No. 671, Knights of Columbus, and members of circles from Tiffin, Galion, Mansfield, Chillicothe and Sandusky.

The banquet was served by members of the Knights of Columbus. Decorations on the speakers' table were a large bouquet of jonquils, pink carnations and blue Iris, lighted tapers and streamers of pink and blue crepe paper. Tapers in varied colors and blue and white programs marked the remaining tables. Covers were placed for more than 200 members and guests.

Sportsmen Mourn Death of "Silent Scot", Jock Sutherland, Great Football Coach

By The Associated Press

PITTSBURGH, April 12—The nation's sportsmen—athlete and spectator alike—today mourned Dr. John B. (Jock) Sutherland, the "Silent Scot" of American college and professional football.

Hundreds of messages of condolence poured into the Steel City following the death yesterday of the 59-year old coach of the National Football league's Pittsburgh Steelers. He died after an operation for a malignant brain tumor.

Sutherland, who achieved his greatest fame at the University of Pittsburgh, was found wandering not far from his mired car last Wednesday near Bandana, Ky. Physicians first believed he was suffering from nervous exhaustion.

Flew Home Friday

After he was flown here Friday night a brain condition was discovered, but physicians were unable to remove the malignant tumor.

Sutherland left Pittsburgh about three weeks ago, traveling alone on a combined business and scouting trip. Although he had complained of headaches, his death shocked his friends.

It was in Pittsburgh, both in pro and college ranks, that Sutherland achieved his greatest success after 15 years as coach at Pitt. He entered the pro ranks in 1940 as coach of the Brooklyn Dodgers, then in the NFL. After serving in the Navy as a lieutenant-commander in World War II, he came "home" to coach the Steelers in 1946.

Never Married

Sutherland never married. He came to this country as a youth from Cooper Angus, Scotland.

After working seven years he entered Pitt and played in the first college football game he ever saw.

Academically he studied dentistry and won his doctorate. He never practiced but served as an instructor at Pitt's dental school.

Members of the Steelers will be pallbearers when his funeral is held at 4 p. m. tomorrow at Calvary Episcopal church.

An Iron Man Was Jock Sutherland, —And He Taught Iron Football

By OSCAR FRALEY

United Press Sportswriter

NEW YORK, April 12—He wasn't the kind of man many people will mourn deeply, a cold guy and a hard one, but anybody in the football world will be proud to say he played for Jock Sutherland.

The big doctor who heard the final whistle yesterday was an iron man who taught iron football. With him you touched the power only faintly with guile and you ground down the other fellow until you could walk on him.

Sutherland was a tireless and harsh taskmaster who looked upon his players as machines, not as human beings to be praised when they did well. He was a perfectionist and a fundamentalist and those tactics were too demanding to foster a brotherly bond between him and his players.

Lived Football

And the "dour Scot" helped build this legend. It made his job easier. Intense, he lived, breathed and thought football all his waking hours. And he laughed when they called him "Hard Hearted Jock." For those driving, drill master tactics produced technically sound and physically perfect elevens.

"Conditioning," the huge stern-faced man used to say, "is everything. Actually, the only way you can get any fun or any results out of any sports is to be in shape"

And he left college coaching behind him and went with the pros, Jack gave them the same medicine. When he went to Brooklyn most of the Dodgers took a prompt dislike to him. He treated them as though they were college freshmen, throwing away the old plays and setting them to work at blocking and tackling, the well-loved fundamentals.

It wasn't that the taciturn man didn't like people. But Jock was friendless and wretchedly poor when he came here from Scotland as a boy and it took him a long time to even partially overcome the reserve hammered into him by those years in which he was a nobody.

Churning Inside

Outside he was placid and aloof. Inside he was churning, wanting to win the ball game. He never made them a speech telling them about it. That wasn't his way. As far as Jock was concerned he had them ready as possible.

The bruises for which they secretly swore at him were proof of that. He had given them the fundamentals, and the conditioning. The rest was up to them.

And the record bears silent testimony of how often it worked.

For in 24 years of coaching Jock's clubs won 72 ball games. They only lost 44 and 15 came out dead heats.

There aren't many greater records than that in the history of the game. Four, as a matter of fact.

That's why a lot of men, who may not have loved him, can be proud they played for the "iron doctor."

They should be too. Because to play for Jock you not only had to be a man, you had to be a good one!

Wet Harness Racing Session Resumes Today

By The Associated Press

ARCADIA, Calif., April 12—Weather permitting Grand Circuit harness racing resumes its rain-plagued meeting at Santa Anita Park today.

Two mid-week stakes and a specially-arranged Free-For-All Pace on Saturday feature the week's program.

The $5,000 Riverside Trot at a mile and one-sixteenth is set for Wednesday and 61 horses have been nominated. Two days later comes the $5,000 Inglewood Pace, with 64 eligibles.

The Saturday's special is a $2,500 Free-For-All Pace which doubtless will bring out many of the top contenders for the $50,000 Golden West Pace May 1.

Last Saturday's card was called off because the track, as in the case of the preceding Saturday, was deemed too muddy for safety or good racing.

Smitty's Softballers Enter Inter-City Loop

Smitty's will again have a softball team entered in the Inter-City Softball league this year. Six teams, one from Tiffin, Toledo, Mansfield, Sandusky and Ashland, along with Marion will comprise the league. Last year Toledo won the state softball championship and Ashland the sixth district crown.

All home games will be played at the Crystal Lake Park on Wednesday and Sunday and will consist of double headers with Smitty's girls playing the first half on each twin bill.

A meeting of all players from both the girls' and boys' teams will be held Tuesday night at Smitty's immediately following the final basketball game to be played by the Girls at the YMCA. The Novelty Bar, all-colored girls' team from Columbus, will be entertained by Smitty's Girls in a game to start at 8 p. m.

RAIN CANCELS CUBS INTRA-SQUAD GAME

Will Play 1st Game on Next Good Day.

The rain today and yesterday put the damper on the first intra-squad game of the Marion Cubs which might have been played today, but Manager Zeke Bekeza promised a game on the next good day.

The candidates for the Marion club of the class D Ohio-Indiana league will work out today regardless of the wet grounds, but they won't work inside Lincoln Park. Hurling practice and some more conditioning are on the docket today.

The Cubs got their second long workout Saturday when batting practice, infield and outfield drills were engaged in for a good six hours. Their only other full day was on Thursday. Since opening training last Monday, inclement weather has curtailed practice.

The Cubs opener with Lima April 27 is scarcely two weeks away and every good day of practice will aid the locals in repeating or bettering their second place finish last year in the eight-team league.

Bekeza indicated today that the squad will get the first cut at the end of the week. By opening day, the Cubs will be down to the maximum player limit of 17.

BUDDY PATCHEN'S win in the eighth race at Santa Anita Friday brought owner Dr. J. G. McNamara a record of two wins, a second and a fourth in the four starts of his five-year-old pacer and the trotter, Cleverness . . . Buddy Patchen came in fourth in the Pasadena Pace, and Cleverness won one $1,000 stake race, and ran second in another . . . Foy Fundedburk, who drove McNamara's entries in all but the Pasadena Pace, has a string of 16 top harness horses, with him for the Santa Anita session, coming from Michigan, Indiana, and Ohio . . . Funderburk's first trainer is Leroy Shroats of Marion, who took Buddy Patchen as a colt and trained him to become the crack pacer he is . . . Shroats, who lives on a farm south of Marion in the off-season, has his wife with him at Santa Anita.

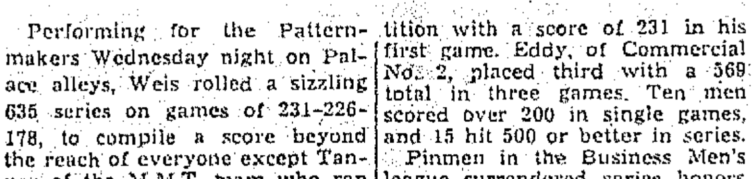
THERE'S A GUY up in Detroit who thinks grandpop might have had something after all in the Stanley Steamer, and that's Don Suttle, who is so high on the choo-choos that he has entered a steam machine in the Indianapolis Motor Speedway's annual 500-mile classic May 31 . . . His Suttle Steamer Special, affectionately termed the "Choo Choo Baby," weighs only 1,270 pounds and Suttle thinks it is capable of churning up the highway at a 200-mile-per-hour clip . . . The power plant consists of only 16 moving parts and Suttle claims that the engine used less than a half-pint of lubricating oil during a recent 15-hour test at 2,000 revolutions per minute . . . The Choo Choo Baby is a two-cylinder creation with a four-inch bore, five-inch stroke and piston displacement of 226 cubic inches . . . It has a direct drive and no gears of any kind . . . Unlike the steam cars of old, there is no boiler on Choo Choo, but instead 68 feet of coiled steel tubing. An automatic water pump injects water into the tubing and a constant pressure of 750 pounds per square inch is maintained. Just how she gets het up is a secret between Choo Choo and her builder . . . Suttle's a guy can say "Watch my steam" and mean it . . . His entry boosted the nominations to 34 and 25 more are expected by the closing deadline next Thursday.



Performing for the Patternmakers Wednesday night on Palace alleys, Weis rolled a sizzling 635 series on games of 231-226-178, to compile a score beyond the reach of everyone except Tanner of the M.M.T. team who ran second with a 630 series on games of 235-206-189. Tanner copped single honors with his 235 game. Weis ran second in single competition with a score of 231 in his first game. Eddy, of Commercial No. 2, placed third with a 569 total in three games. Ten men scored over 200 in single games, and 15 hit 500 or better in series.

Pinmen in the Business Men's league surrendered series honors to H. Doss, 579, and single honors to Peifer who rolled 214 in one effort. Pollock and Eiseman rolled single scores of 208.

BOBO STILL LOOKING

OKLAHOMA CITY, Okla., — Ol' Bobo Newsom still was scanning baseball's want ads today.

Mel Ott, manager of the New York Giants, admitted yesterday that he had spoken with the veteran right-handed pitcher "several times," but emphasized that no agreement had been reached. The 39-year-old Newsom was given his unconditional release by the New York Yankees two months ago and worked out with the Washington Senators this spring as a free agent.

BOSOX LACK POWER

ALANTA, Ga. — Manager Joe McCarthy of the Boston Red Sox was seriously concerned today by the lack of power exhibited recently by his club.

Despite Joe Dobson's neat five hitter, Boston bowed to the Atlanta Crackers, 1 to 0, yesterday. Joe Kennedy of Atlanta tamed the Red Sox with three hits.

YANKS ADD TO HOMERS

NEW ORLEANS — The New York Yankees' spring total of home runs stood at 23 today after two circuit clouts by Billy Johnson and one by Joe DiMaggio enabled the Bronx Bombers to trounce New Orleans, 14 to 6, before 8,468 onlookers.

CLEVELAND BARONS WIN HOCKEY CHAMPIONSHIP

By The Associated Press

BUFFALO, N. Y., April 12 — The Cleveland Barons today held the American Hockey league championship for the fourth time in the circuit's 12-year history.

The Barons clinched the Calder Cup last night with a convincing 6 to 2 victory over the Buffalo Bisons. It was the fourth straight win in their best-of-seven playoff series.

Set Public Hearing On Duck Hunting Season

By The United Press

COLUMBUS, April 12—A public hearing to determine when Ohioans think the duck hunting season should be will be held here April 26 by representatives of the U. S. Fish and Wildlife Service.

The hearing is expected to renew the perennial fight between duck hunters of central Ohio and those hunting in Lake Erie marshes.

The groundhog will get attention at the annual game hearing of the conservation and natural resources commission to be held May 20.

The woodchuck is on the protected list this year for the first time and many sportsmen object to protection for what they call a "destructive varmit."

Billy Southworth Is in an Enviable Spot —His Braves Could Sneak by Cards, Bro

By JOE REICHLE

AP Sports Writer

NEW YORK, April 1 Southworth, smart little le the Boston Braves, is horse which has drawn th position at the getaway p is in an enviable spot.

While Leo Durocher of fending Brooklyn Dodge Eddie Dyer of last yea ner-up St. Louis Cardin busy watching each oth canny Southworth is in to sneak right past those give the Braves their first 34 years.

There is no doubt the are an improved club of t third placers. They de rate as the "dark horse" National league pennant. may not make it, but are certain to be a strong f the race.

Giants Look Good T

Not only are the Dodge Cardinals in danger of bei passed by the Braves b find themselves looking the heels of the murderous New York Giants. In fac touring the Florida regior most of the clubs for a this observer believes th Dodgers will be hard pre stave off Cincinnati's bid first division berth.

Pittsburgh, Philadelphi Chicago should engage in scramble to stay out of the The misnamed Cubs, wit aging players might gai dubious honor.

In our opinion, the league race shapes up li

1. Boston	5. Cincinn
2. New York	6. Pittsbu
3. St. Louis	7. Philade
4. Brooklyn	8. Chicag

Why can the Braves fir top—something they have plished only once since Here are the reasons.

1. Southworth, keen, tional manager, is probab greatest handler of ball today.

2. A pitching staff that the best in the league hea Warren Spahn and Johnn 21-game winners last yea

3. A vastly improved k combination. Second basen Stanky and rookie shortst vin Dark figure to be stronger than last year's play combination.

4. The addition of a hitter in outfielder Jeff and the development of first baseman Earl To Heath, obtained from th Louis Browns, whacked 2 baggers last season.

Dark-Horse Claude Harmon Wins Masters With Record-Tying 279

By The Associated Press

AUGUSTA, Ga., April 12—The 12th annual Masters' golf tournament is over, but not the memory of dark-horse Claude Harmon's win with a record-tying 279.

For Harmon, a stocky club pro who winters at Seminole club, Palm Beach, Fla., and summers at Winged Foot, Mamaroneck, N. Y., the victory yesterday was worth $2,500.

His 279 tied the Masters' record set by Ralph Guldahl in 1939.

The 31-year-old Harmon came in five strokes ahead of Cary Middlecoff of Memphis, Tenn., who was second in the field of 57 of the world's best golfers.

Bobby Jones, making his annual tournament appearance, registered another 79 Sunday for a 72-total of 315, his worst competitive showing.

In third place with 287 was Chick Harbert of Detroit, who blew up on the first nine of the final round after starting the day as the chief threat to Harmon.

Bobby Locke, the putting wizard from Johannesburg, South Africa, had to be satisfied with a 291. So did Herman Heiser of Akron, O., the 1946 winner.

REDLEGS TO MEET BOSOX IN SERIES

By The Associated Press

CHARLOTTE, N. C., April 12—The Cincinnati Reds stopped off here today for the first of a three game exhibition series with the Boston Red Sox of the American league.

The Reds, who have been building a favorable win record in their exhibition appearances, have split with the Red Sox. Each team has won twice. They meet tomorrow at Durham, N. C. and Wednesday at Roanoke, Va.

Johnny Nuen, Redleg manager, chose Herman Wehmeir and fireman Harry Gumbert to hurl today against the Sox.

The whiplash arm of Ewell Blackwell stopped the Boston Braves for eight innings at Columbia, S. C., yesterday before the Tribe tallied three times on two walks, a double and a single. The 4-3 victory over Boston was the second in three days for Cincinnati.

Blackwell, the lanky right-hander who led the National league hurlers with 22 wins and eight losses last year, refuses to predict how many games he'll win for the Reds this season. He just says he'll be better.

EEREY CLUBS WAY TO STARTING BERTH

By The Associated Press

[illegible] Okla., April 12—It [illegible] large weekend for Pat [illegible]) Seerey and the [illegible] Irishman reaped the harvest [illegible] by being assigned to [illegible] Cleveland Indians' regular [illegible] field post—until further no- [illegible] got to leave Pat in there now," said Tribe Manager Lou Boudreau after Seerey clubbed his fourth homer in two days to pace the Indians to a 12-4 trouncing of the New York Giants before 11,401 at Oklahoma City yesterday.

Seerey, who blasted three circuit clouts Saturday, "has experimented so much that he may have finally found himself," Boudreau declared.

Bob Feller hurled eight easy innings yesterday as he chalked up his second straight victory over the Giants—the only triumphs notched by the Indians in their last six meetings with the hard-hitting National leaguers.

Rapid Robert fanned New York's "murderers' row" of Whitey Lockman, Bobby Thomson, Johnny Mize and Willard Marshall in succession in the second and third frames. An eight-run sixth inning by the Indians enabled Feller to coast the rest of the way, fanning eight as he proved he would be ready for his opening day assignment.

Seerey added the finishing touch to the sixth inning spree, blasting a liner over the left field wall.

New York has copped six of the 10 tilts to date.

MOTHER HELD AS SLAYER

By The Associated Press

KIRKLAND LAKE, Ont. April 12—Mrs. Lucille LaMarche, 21, was held on murder charges today. Police say they believe she threw her two-months-old son, Lawrence, into a stove yesterday morning in a fit of rage because the baby cried.

NEGOTIATIONS HALTED

By The Associated Press

HOLLYWOOD, April 12—The Screen Actors Guild announced today it had broken off contract renewal negotiations with film producers. The Guild said it had received a "flat no" from producers on seven of eight contract proposals.

Sports Chatter On This and That

By Fritz Howell
Ohio AP Sports Editor

COLUMBUS, O., April 12—A casual glance around Ohio's sports scene:

Al Ott, new skipper of the Youngstown Colts of the mid-Atlantic league, is no relation of Mel Ott of the New York Giants. However, he's a cousin of Eddie Miller of the Phillies, former friend and severest critic of the Cincinnati Reds.

Adolph Rupp, coach of Kentucky's National Intercollegiate Basketball champions, spent a few days last week in northern Ohio—making speeches and talking things over with Ashland's All-Ohio Dick Messner and Salem's Big Bob Pager, twice selected for all-state high school laurels.

OHIO STATE puts its 1948 football tickets on sale Aug. 1 . . . The southern Ohio qualifier for the PGA tourney at St. Louis May 19-25 is booked at Springfield Country club April 26 . . . The Muskingum county Fair, Aug. 19-21 offers $5,400 in harness race purses . . . The Cleveland Browns' football clinic—with an expected attendance of 1,000 coaches—is scheduled April 30 May 1 at Cleveland . . . The Ohio Trackster has named Jim Jordan of Mariemont-Plainville High school the state's No. 1 class B scholastic track star of 1947 (he set a new class B pole vault record of 12 feet 3¾ inches last year).

NEW LEXINGTON was the "kiss of death" team in the recent Ohio high school basketball tournament. In the district meet at Athens New Lexington lost to Ironton 41-34. Then in succeeding games Ironton lost to Marietta 40-36, Marietta bowed to Hillsboro 55-45, and Hillsboro lost a 53-49 game to Portsmouth.

In the state meet Coshocton to Akron South, 67-51, and Akron South bowed to Coshocton 42-40.

In the state meet Coshocton lost to Hamilton Catholic 56-55, and then Hamilton lost to Findlay, 51-36—New Lexington starting the long string in which no team could win two in a row.

* * *

BACK ON JAN 3, long before the high school basketball season had taken shape, sports writer Ray Garrett of the Hamilton News Journal picked Findlay's Trojans and Hamilton Catholic's Rams to meet in the finals of the state class A tourney.

Not only that, but he selected Findlay to defeat the Rams.

All of which came true—right to the nose—and which qualifies Ray as the best of the Buckeye forecasters.

3 AUTO CRASHES REPORTED BY POLICE

Trio of Autos Involved in One Collision.

Three Sunday traffic accidents, one of them a three-car crash, were reported by police.

The three-car crash occurred at the intersection of Delaware avenue and Walnut street at 10:47 a. m. when cars driven by John Philip Eichorn, 60, of near Marion and Harold H. Fry, 24, of 348 Silver street collided, careening the Fry car into a parked car owned by Robert Roy Bush, 34, of 253 East Walnut street. All three cars were considerably damaged, police reported.

At 3:10 p. m. Sunday cars driven by Henry Reichardt, 33, of 583 Bartram avenue and Leonard Ahrnay, 23, of 340 Oak street collided at the intersection of Superior and South Prospect street with slight damage to both cars resulting.

Cars driven by George W. Conklin, 29, of near Marion and Frank C. Hall, 44, of 938 Bennett street collided in the 400 block of West Center street at 1:10 p. m. yesterday. The Conklin car was considerably damaged while the Hall car was damaged slightly, police reported.

Three traffic arrests were made Saturday night according to police reports.

At 10:15 p. m. James Wilson Ruth, 18, of near Marion was arrested on Mt. Vernon avenue charged with speeding. He posted a $25 bond for his appearance in court this morning, failed to appear and forfeited the bond.

Roy Mask Jr., 20, of near Marion was arrested at 7 p. m. Saturday night charged with speeding on East Center street. He posted a $25 bond for his appearance before Judge Hazen this morning. He was fined $15 and costs after filing a guilty plea.

William McKinley O'Hara Jr., 26, of Green Camp was arrested at 5:07 p. m. Saturday and charged with speeding on Davids street. He also posted a $25 bond for a court appearance this morning. He pleaded guilty and was fined $15 and costs by Judge Hazen.

Deafened Now Hear With Tiny Single Unit

Science has now made it possible for the deafened to hear faint sounds. It is a hearing device so small that it fits in the hand and enables thousands to enjoy sermons, music and friendly companionship. Accepted by the American Medical Association's Council on Physical Therapy. This device does not require separate battery pack, battery wire, case or garment to bulge or weigh you down. The tone is clear and powerful. So made that you can adjust it yourself to suit your hearing as your hearing changes. The makers of Beltone, Dept. *14, 1450 West 19th St., Chicago 8, Ill., are so proud of their achievement that they will gladly send free descriptive booklet and explain how you may get a full demonstration of this remarkable hearing device in your own home without risking a penny. Write Beltone today.—Adv.

New York Stock Quotations

By The Associated Press

NEW YORK, April 12 — Stocks continued to edge selectively toward recovery today although many leaders faltered.

The apparent ending of the coal mine dispute was viewed as bullish.

Assorted rails and industrials advanced fractionally at a fairly active opening. Dealings then tapered and the direction was a bit foggy near midday.

In the resistant area were Southern Pacific, Southern Railway, Chesapeake & Ohio, Youngstown Sheet, Chrysler, Sears Roebuck, Deere, Boeing, Schenley, Kennecott, Union Carbide, Pepsi-Cola and Texas Co.

Occasional stumblers included Packard, Montgomery Ward, International Harvester, American Telephone, Western Union, Consolidated Edison, Electric Power & Light, Westinghouse Electric, Allied Chemical, J. C. Penney, Radio Corp. and International Paper.

Steve Canyon By Milton Caniff

SO THIS IS WHERE THOSE VILLAGERS WANTED TO DUMP VAN G. AND HIS HEATHEN IDOL —ON AN ABANDONED DOORSTEP!
VAN GOBLIN THINKS IT'S WHAT'S LEFT OF SOME ANCIENT BIG WHEEL'S COUNTRY ESTATE.
WE'VE DONE IT, MOTLEY, MY DEAR! THE VILLAGERS CONNECTED THE STATUETTE WITH THE PLACE! THEY PUT US ON THAT OLD ROAD KNOWING WE'D FOLLOW IT HERE... HMMM, IT'S MOST UNFORTUNATE THAT LEE AND CHARLES ARE STILL WITH US.
MEANWHILE, IN ANOTHER PART OF THE RUINS...
WHAT TRANQUILLITY!...I SHOULD RESENT HAVING IT BROKEN BY INTRUDERS FROM BLASTED CIVILIZATION— RESENT IT QUITE DEEPLY!

TODAY'S BIRTHDAY

By AP Newsfeatures

LILY PONS, born April 12, 1904, near Cannes, France, is a brilliant coloratura of the Metropolitan Opera Co.

Both American and foreign audiences have applauded the vocal acrobatics of her bell-like voice.

She first studied piano but discovered she had a voice and after her marriage to August Mesritz, wealthy Dutchman, she concentrated on its cultivation.

She made her operatic debut at Mulhouse, France, in 1928, sang in the French provinces and came to the Metropolitan in 1931.

She is now married to orchestra conductor Andre Kostelanetz.

One Man's Opinion

By WALTER KIERNAN

Our government is returning several old masters to Europe . . . Possibly in the hope of impressing the new masters.

* * *

These were paintings taken "in protective custody" . . . A quaint phrase usually meaning "The motor's running, where's the stuff?"

* * *

But by returning the seized paintings we set an example for any power which may have been seizing people.

* * *

Mr. Truman has been around twice to see the old masters . . . The way things are going he could use some advice.

* * *

The President admired Franz Hals work but this the year Frank Hague could do more for him.

* * *

Hague is no longer active and since he came out for Truman one Republican was heard to say "that proves it."
